DETAILED ACTION

Response to Arguments

Applicant's arguments filed on May 03, 2005 have been fully considered but they are not persuasive. Page 7, applicant stated that "claims 1 and 11, as amended, are not anticipated by Tang reference and are therefore allowable." However, the amended subject matters are not disclosed in the specification. Applicant needs to point out where in the specification that teaches "wherein each of the at least two chopping amplifier stages contributes a partial gain amount to an overall gain of the chopping amplifier and wherein the overall gain is a sum of the partial gain amounts of the at least two chopping amplifier stages."

Accordingly, claims 1-4, 10-14, 20, 22, 24 remain rejected.

Allowable Subject Matter

Claims 5-9, 15-19, 21, 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
